Understanding
the Oil & Gas
industry in Mexico

Understanding the Oil & Gas Industry **in Mexico**

The Oil & Gas industry in Mexico today is in constant change as a result of the new vision for the sector, and the global energy transition.

The latter, reflected in several amendments to **the legal and institutional framework**. Our team's multidisciplinary approach allows us to understand the challenges that **Operators face**. Based on our experience in the private and public sector, we design customized strategic solutions strengthened by our broad knowledge about the business, its **legal framework and regulator's decision-making processes**.

About **Muvoil** Consulting

Founded in **2018** by a multidisciplinary **team of professionals in the Oil & Gas industry** who offer solutions in the **legal, tax, financial, social, technical and environmental realms**.

Part of our team designed Mexico's 2013 energy model and have remained active in the sector through its implementation.

Our role in the Sector over the years gives us broad capabilities and **experience** in designing customized strategic solutions.

Our experience is further supported by our **knowledge** of the political and economic context of the Mexican Oil & Gas industry.

More recently, Muvoil has grown and diversified its capabilities through strategic **alliances**, that makes our team even more versatile, resourceful and skillful.

STRAUSS HAUER & FELD LLP

**INNOVATIVE SOLUTIONS
FOR SUCCESSFUL PROJECTS IN
THE MEXICAN OIL & GAS SECTOR**

Reasons to work with us

Our multidisciplinary local and international team includes **Economists, Engineers, Geologists, Lawyers, and Sociologists** with broad experience in the private and public sector.

We aim to provide **knowledgeable, timely, effective and efficient solutions** for companies playing in the **Oil & Gas Sector** so they can fulfill their obligations according to the applicable legal framework so as to avoid operative or contractual delays.

Competitive Edges:

Knowledge

Active participants in the development and execution of successful regulatory, contractual and commercial strategies for onshore and offshore projects.

Creativity

Tailor-made strategic solutions are strengthened by our broad capability to interpret the rationale behind the applicable legal framework activities in concert with the E&P contracts.

Honesty

Our solutions are designed in strict compliance with the applicable legal framework, and the economic and political context of the industry.

Experience

Proven wide knowledge about requirements, decision-making processes, and needs of the stakeholders involved in E&P activities in Mexico.

Our solutions for the Oil & Gas Sector

COMPLIANCE ASSISTANCE

Fulfill your contractual and regulatory obligations in a timely manner.

Management, assistance or regularization of your E&P Contract:

- License.
- PSA.
- Services.
- CSIEEs, CIEPs and COPFs.

We are with you every step of the way:

- Approvals.
- Desktop Audits.
- Strategic Critical Paths.
- Due Diligence.

COMMERCIAL RELATIONS

Successful tailor-made negotiation and communication strategies.

Your operational needs are our focus to design strategies that achieve a win-win negotiation with suppliers and potential partners through: drafting and amending **EPC, O&G SPA, JOAs, CAs, FOAs, Lifting Agreements**; building Data Rooms; financial restructuring; corporate accompaniment; renewing or amending insurance policies and guarantees.

SPECIALIZED TECHNICAL REGULATORY ASSISTANCE

Approvals in compliance with the applicable regulations.

The combination of our team's technical specialization and broad experience in the administrative field allows **Muvoil** to offer specific and efficient solutions for:

- ✦ Structuring **Plans: Exploration and Field Development**, either to be approved or amended.
- ✦ Structuring **Programs: Appraisal, Transition, EOR, PAGNA and PPCIEM**, either to be approved or amended.
- ✦ Structuring of **Annual Working Programs and Budgets**, either to be approved or amended.
- ✦ Documenting notices and permits for **drilling**.

- ✦ Advising on **static and dynamic characterization of fields**.
- ✦ Structuring, amending or obtaining **SASISOPA; AIA; ARP; PRE; ERA, ARSH, PPA**, among others.
- ✦ File, control, follow up, and manage the relevant technical, and environmental reports.
- ✦ **Economic analysis** and optimization of portfolio investment projects.
- ✦ Provision of tools, **such as territorial analysis or thematic cartography**, to identify the main features of the land where the projects will be developed and its surroundings.
- ✦ **Developing of solutions** for creating social acceptance through the understanding, **repairing or strengthening of relations between communities and E&P projects**.

**COMPLEMENTARY
SERVICES**

Strategic Litigation

We advise and design legal strategies for Administrative resources; Mercantile, civil & agrarian litigation; Commercial arbitration; Amparo trials; Constitutional controversies, and Unconstitutional actions.

Liaison

We serve as your voice before the competent authority to express concerns about draft regulations and thus be active participants in their updating through direct feedback from the industry.

Regulatory Monitor

We carry out constant assessments of regulatory impact to keep your E&P contracts up to date. We make sure you have timely and informative analyses in the face of constant updates to the legal framework.

Tailored Workshops

We provide personalized workshops for your company, designed by our versatile group of professionals in the O&G Industry.

Political Analysis

We provide both political analysis and political communication strategies with an ample understanding of the political concerns that an Oil & Gas enterprise must consider while designing each deal or project to be developed in Mexico.

Main Clients

After an initial consultation
to discuss your needs,
**we will design a customized
solution for your Company.**
